

Reiki 1st Degree Class

with Brian Brunius

**REIKI, pronounced "ray key" means Universal Life Force.
This energy is all around us, and we can transmit it.**

Reiki is a simple method of hands-on healing developed by Dr. Mikao Usui in Kyoto, Japan. When used properly, energy flows through the hands of the practitioner into the cells of the person being treated where the energy normalizes body/mind functions. Reiki differs from any other healing method in that a special initiation formula is used by the Reiki instructor to prepare the workshop participant for the flow of healing energy, and to protect the participant against taking on the conditions of the person being treated. By the end of the Reiki 1st Degree Experiential Workshop you will be able to:

- Apply Reiki energy to yourself and others, and sense the energy as it flows through your hands.
- Feel the energy of the person receiving treatment and perceive areas of reduced vitality.
- Appreciate how attitudes can create dis-ease in the mind and emotions, affecting the physical body.
